## PROGRAM

The MDS is a powerful tool for implementing standardized assessment and for facilitating care management in nursing homes. MDS 3.0 has been designed to improve the reliability, accuracy, and usefulness of the MDS, to include the resident in the assessment process, and to use standard protocols used in other settings.

Implementation of MDS 3.0 is on the horizon. *Providers are required to implement MDS 3.0 effective October 1, 2010.* Are you prepared for the changes it promises to bring to the long-term care industry? The instructor will walk you through the new form step-by-step, highlight the similarities and differences between MDS 2.0 and MDS 3.0, and provide detailed instructions for completing the MDS.3.0 form.

## CONTINUING EDUCATION UNITS/CREDITS – 6.0
