PROGRAM
The new LTC Requirements of Participation and Survey Process are here and integrating food, nutrition and dining are integral components for success. This program will explore the CMS revised Requirements for Participation for nursing facilities. Compliance and suggestions for success for implementation will be discussed related to food, nutrition and dining.

In addition, attendees will be provided an overview and practical resources to help with successful implementation of Person-Centered Care while offering the most current “best practice” guidelines for nutrition. Prevention and management of pressure injuries will be presented with practical suggestions for nutrition “best practice” using “evidence-based” guidelines that providers can integrate into their daily operations. The end goal is that each attendee takes something of value from the program to support improved Quality of Life and Quality of Care related to Food, Nutrition and Dining.
